Susan,

Did Chris get back with you . . . if not our OSC's working Mayflower are Nic Brescia & Bill Rhotenberry.

Nic is on-site today & Bill is in the office.

Chris/Wes – if you are in today would you give me a call about this? We are just trying to help Tammie Hynum at ADEQ with this waste issue. Thanks

Susan Spalding
Associate Director, RCRA
EPA Region 6

Importance: High

Mark, Susan, and Chris,

ADEQ is in receipt of the attached letter from LDEQ to ExxonMobil regarding the Arkansas Mayflower wastewaters. In accordance with the current Unified Command Waste Disposal Plan the oil has already been vacuumed off the waters in the frac tanks. Some of the waters tested

hazardous; some non-hazardous and a large volume have yet to be sampled. Thus, what would be shipped is the water remaining after the oil has been removed with a vacuum. The current approved UC Waste Disposal Plan calls for all liquids (oil/water mixture) to be disposed of at a HW permitted TSDF (Rineco).

Please review the attached letter and let me know if you agree with the contents of the letter as it relates to the Mayflower ExxonMobil pipeline. I appreciate your attention to this matter.

Thanks,

Tammie J. Hynum, Chief
Hazardous Waste Division
Arkansas Department of Environmental Quality
5301 Northshore Drive
North Little Rock, AR 72118
